

Programme and Project Management IT Solutions

About Us

Sandiy is a premier provider of IT and business process outsourcing solutions, with over 10 years of experience managing mission-critical operations. For IT-driven companies who lack the resources to cost-effectively maintain all of their tactical IT operations, Sandiy's Outsourcing is an objective - driven method that helps them target and outsource specific, well-defined IT functions while keeping other business-critical operations under internal control. Unlike limited "boutique" services or "all-or-nothing" outsourcing services, our Outsourcing Solutions empower customers to more precisely align their IT infrastructure with strategic business objectives – to reduce costs and improve competitive flexibility.

Race to business results!

Speed to success . . . every second counts in today's competitive markets. Winning is dependent, in part, upon successfully implementing your IT projects. Let SANDIY help you win the race by providing you with the skills to deliver IT projects — on-time, on-budget and on-target.

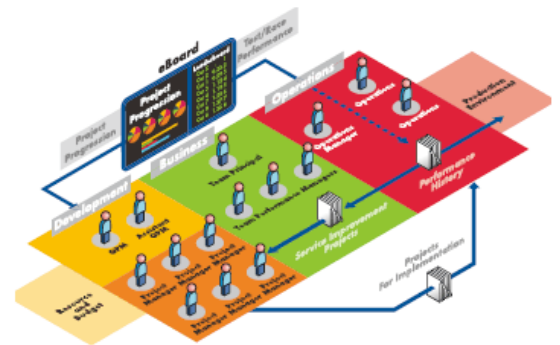

Most IT projects fail due to insufficient professional project management. One study indicated that without well-trained project managers, "56% of projects saw cost overruns of more than 50%, and 84% had time overruns."

SANDIY, with 8+ certified Project Management Professionals (PMP®s) worldwide can successfully design and deliver large complex projects. We carry this expertise into our classroom, showing you how to deliver projects that make you and your organization successful. We complement our project management expertise and training with a complete curriculum of project management courses using varying learning modalities, including a complete series of certified instructor-led courses; online courses and reference tools. Our training can equip you for the PMP certification examination. And SANDIY can also provide extensive training on Business Analysis to enable you and your organization to achieve Certified Associate in Project Management (CAPM) status.

Race-to-Results PM Simulation

Sandiy's unique Race-to-Results Project Management Simulation provides an exciting and practical environment to learn key portfolio, program and project management principles.

This comprehensive, multiple project simulation is an exciting high energy team activity that clearly illustrates the business benefits of project management. Experiential learning, facilitated by the world of motor racing, leads to breakthrough understanding of how multiple projects must be orchestrated to maximize bottom line business results.

Project Management Institute® Registered Education Provider (REP)

As a PMI Global Registered Education Provider (REP), SANDIY project management courses satisfy the requirements for PMP and CAPM contact hours. Come to SANDIY for your certification or for acquiring additional PDUs.

Project Management Professional (PMP) Certification

The Project Management curriculum is designed for project managers looking for best practices to apply to diverse projects. Build your technical knowledge and management skills, learn techniques that reduce or eliminate redundancy and re-work, and acquire the well-rounded skill set you need to master the project life cycle. At the same time, prepare for the Project Management Institute (PMI®)'s PMP certification exam by developing a wide range of project management skills and best practices. You are required to verify at least 35 contact hours of specific instruction that addresses learning objectives in project management in order to apply for PMP certification.

Certified Associate in Project Management (CAPM)

Be introduced to basic management principles and skills needed to support projects. Improve project results — cost, schedule, and quality — using project management best practices. Our courses prepare you for PMI's CAPM™ certification exam. You are required to verify at least 23 contact hours of specific instruction that addresses learning objectives in project management in order to apply for CAPM certification.

Business Analysis Certificate Program (BACP)

Projects frequently fail due to misalignment with the organization's business requirements. Professionally executed business analysis that is integrated into the project management process helps to ensure projects will optimally benefit an organization. Hewlett-Packard's Business Analysis Certificate Program (BACP) provides business analysts and related professionals with the knowledge and skills critical to identifying business needs and determining solutions to business. The Business Analysis Certificate Program helps experienced professionals integrate the technical and leadership competencies required of large, enterprise - wide, complex projects. Our business analysis curriculum is consistent with the emerging IIBA Business Analysis Book of Knowledge (BA BOK®).

Training options to consider

SANDIY has the ability to effectively deliver training in every medium including traditional classroom, on-site, instructor-led e-learning and self-paced courses.

- Classroom training- as part of our open enrollment
- Training at your site for your team
- Online: self-paced and instructor-led training
- Business as well as technical simulations
- Printed job aids, like white papers and books
- Customized education

... and the expertise to know which delivery methods are most appropriate for a particular learning and business need.

Get the best value

To get the best value in training, consider our SANDIY Care Pack. These prepaid packaged services are available directly from SANDIY or your reseller and are paid in full at time of purchase. They are simple to purchase, simple to use and provide the ultimate in flexibility and savings.

Ensure successful IT Service Management projects

According to IDC, 8 out of 10 ITSM projects fail, caused primarily by lack of skills. Sandiy is famous for our ITIL/ITSM project deliveries and can help you acquire the skills to be successful. Sandiy understands the intersection of ITSM and project management. Let us show you how Sandiy can train your IT staff to ensure ITSM projects succeed.

Why choose Sandiy for Project Management

training No other organization brings the depth of project management experience combined with the breadth of training expertise as SANDIY.
